AN ALL STAR CAST

WORK OF BAPTISTS GREATLY ENLARGED DURING PAST YEAR; ALABAMA LEADING

Convention Will Receive Encouraging Reports of Results Accomplished.

FINANCIAL CAMPAIGN HIGHLY SUCCESSFUL

Mission Program Has Been Extended and Now Reaches Many Lands.

The Alabama Baptist convention, which opens here Tuesday, will bring together delegates representing 2250 churches with 240,000 members. The state organization is a part of the Southern Baptist convention which has 25,000 local churches with approximately 3,000,000 members.

The work of the state organization has gone forward in all sections of Alabama at a rapid rate during the past year, while receipts of the general board for the Southern convention are twice as large as ever before.

It having been voted by the Southern convention a year ago to launch a campaign for \$75,000,000 in cash and five-year subscriptions for the furtherance of all the work of the denomination, except that done locally, such a campaign was organized and successfully completed within six months, the sum of \$90,600,000 having been subscribed within eight days' time. Of this Alabama subscribed \$4,500,000. Within the five months following the close of the campaign more than \$12,000,000 in cash has been paid in on the subscriptions.

The general work of the convention is carried on through its Foreign Mission Board at Richmond, Va.; Home Mission Board at Atlanta, Ga.; Sunday School Board at Nashville, Tenn.; Board of Relief and Annuity at Dallas, Texas; Education Board at Birmingham, Ala.; Woman's Missionary Union at Baltimore, Md.; Laymen's Missionary Movement at Knoxville, Tenn.; Commission on the Negro Theological Seminary at Nashville, Tenn.; and the seventeen state mission boards located in the several states co-operating with the convention.

Missionaries Employed
On ten great foreign fields Southern Baptists last year employed 400 American missionaries and 800 native workers. On these fields 482 mission schools and 11 hospitals are operated. The foreign missionary forces will be more than doubled during the next four years, due to the larger resources made available by the 75 Million Campaign.

The Home Mission Board is doing an extensive mission work in Panama and Cuba, and among the people of foreign birth, the Indians and the negroes of the South, in the enlistment of backward congregations, aiding struggling churches in building houses of worship, in educating the mountain boys and girls, and in the work of evangelism in the great centers of population.

In their organized capacity the 25,000 local Baptist churches of the South support the two largest theological seminaries in the world, one large Bible institute, and 140 other educational institutions ranging from the rural academy to the college and the university. Thirty-six of these institutions are established in the mountainous districts of the South where a total of 6152 mountain boys and girls were enrolled this year. In the Baptist educational system of the South a total of 20,000 students are enrolled and physical property to the value of \$25,000,000 is owned by the denomination.

In the various states of the Southern Baptist convention, 15 hospitals are owned by the Baptists and minister to the needs of hundreds of thousands of sufferers annually. Southern Baptists have established at El Paso, Texas, a modern sanatorium for the treatment of tuberculosis and are establishing an endowment fund for the conduct of an educational campaign on the cure and prevention of the great white plague.

Sixteen orphan homes, giving food, clothes, home life, education and moral and religious training to thousands of fatherless and motherless children are owned and operated by Southern Baptists. These hospitals and orphanages, while owned by the Baptists, are open to all sects and creeds.

Tribute Paid By Kiwanis to Service Men Pledge Monument in Memory to the Dead

Armistice Day Program Rendered at Weekly Banquet—Judge L. P. Troup Delivers Address.

Tribute was paid last night by the Morgan Kiwanis club to the American soldiers and sailors—living and dead. The patriotic idea appeared throughout the Armistice Day program at the regular weekly banquet. Following an address by Judge L. P. Troup, the following resolutions, introduced by J. R. Daniell, were passed unanimously by the club:

In that sense that Kiwanis reverences heroism of conduct and exemplifies in its immortal principles the sublime virtue of altruism does it deem it appropriate, on this the anniversary of the cessation of the Great War, to memorialize their patriotic devotion and gratitude to the soldier boys of America, the immortal heroes of all time; the imperial saviors of the world.

However little words may express, Kiwanis tenders:

Resolution 1.—To the sacred memory of the boys who gave their lives that we may live, we vow anew our strongest love and admiration. For their supreme sacrifice Kiwanis would have it known that its entire membership will ever cherish a living, flaming spirit of devoted gratitude and it shall erect—not a monument of stone—but an enduring monument of memory, more tender and true, which shall be transmitted and last forever down through all the coming years of time.

SPECIAL VENIRE IS SUMMONED TO TRY 2 MURDER CASES

A special venire today was summoned for duty in the Circuit Court for the week beginning November 22 when two murder cases are set for hearing. The case of William St. John, charged with slaying S. A. Lamb near Falkville several weeks ago, will be called Monday, November 22, and the case of Sam Tokas, charged with the death of Major Mathews, is set for November 24.

The following jurors have been summoned: O. Preuitt Stinson, John W. Duskin, T. Milton Harvey, Robert Chandler, Luke Sharp, J. Will Orr, Henry R. Davis, Thos. Edgar Butler, Jim O. Stephenson, Leslie Jones, Aubrey D. Maxwell, Tom B. Huddleston, T. Tolley Johnson, Harry Hackinsmith, Albert W. Lemley, Clyde Sharp, Charles Bell, Lawrence W. Lee, Lundy M. Beavers, Jas. W. Pepkin, Robt. S. Mitchell, Jas. L. Allison, Ed. R. Britnell, John H. Kitchens, Jas. M. Briscoe, J. Frank-Houston, Gilbert W. Criscoe, Jerry W. Howard, Alonzo Breeding, Jas. G. Eady.

ANCIENT RIVALS ON THE GRIDIRON MEET

HUNTSVILLE WILL PLAY ALBANY HIGH ON LOCAL FIELD TODAY

Ancient athletic rivals will meet Friday afternoon when the Huntsville high school's eleven clashes with Albany high on the local gridiron at 3:30 o'clock. The Purple and Gold team is in good condition for the fray. The inclement weather of the past few days has interfered to some extent with the preparation for the game, but the team has entirely recovered from the bruises of the Sheffield contest.

The Huntsville eleven was accompanied here by a large number of students. The dope favors Huntsville to win, but the locals have proved to be the best dope-upsetters in North Alabama.

Alabama Winner Over Louisiana

University of Alabama, Nov. 12.—With Lenoir and Stevenson smashing the L. S. U. line and sweeping the ends for long gains, Alabama defeated Louisiana on the campus here Friday, 21 to 0.

Stevenson was taken out of the game in the final quarter to save him for the Georgia contest next week. Alabama has only two more games to play this season, with Georgia and Mississippi A. and M.

ment of stone—but an enduring monument of memory, more tender and true, which shall be transmitted and last forever down through all the coming years of time.

Resolution 2.—To those of the soldier boys who were spared the supreme call and are back with us enjoying the fullness of life and the companionship of all, we extend a loving tribute of ennobled esteem and good wishes. While some of the boys "went west," you were spared to come home and link up again the broken chains of life. To you, now the veterans of the greatest of wars, we also extend the hand of gratitude and devotion. Think not that in the sordid battle of life you are unnoticed and unknown, but be assured that in the inner heart of all America there is a consecration to the wonder and glory of your achievement that will exalt you and does exalt you in a spiritual, patriotic ardor immeasurable beyond expression. It is yours to walk as a king before all America and as the conquering ruler we yield obedience to you. This we do in gracious humility for to the conqueror belongs the spoils; in saving America—a thrilling thought—you win America, a regal prize to regal conquerors.

Resolution 1.—To the sacred memory of the boys who gave their lives that we may live, we vow anew our strongest love and admiration. For their supreme sacrifice Kiwanis would have it known that its entire membership will ever cherish a living, flaming spirit of devoted gratitude and it shall erect—not a monument of stone—but an enduring monument of memory, more tender and true, which shall be transmitted and last forever down through all the coming years of time.

COUNTLESS CURZON'S BROTHER IS DEAD IN HIS BRITISH HOME

A cable message has been received in America telling of the death in Derby, England, of Trillia Monroe Hinds, brother of Countess Curzon, former Decatur woman, now wife of Earl Curzon, foreign minister of Great Britain.

Mr. Hinds died November 10 at Kedleston Hall, the Curzon home, near Derby, England. Death came after a lingering illness.

Mr. Hinds was born in Decatur, in the residence now occupied by R. P. McEntire, near the banks of the Tennessee river. Countess Curzon and other members of the Hinds family were well known by all of the old residents of Decatur. The deceased's father was American minister to Brazil at one time.

Hope for Thirsty, Home Brew Still Not Endangered

(International News Service)
WASHINGTON, Nov. 12.—Home brew is still unmenaced by a ruling restricting the sale of hops and malt, only to bakers and confectioners, it was announced by the Bureau of Internal Revenue today. Such restrictions have not progressed beyond the stage of office memoranda, concerning the possible legality of such restrictions. Commissioner Williams, who would have to pass upon such a departmental order, stated today he had not been consulted.

Vanderbilt Ready To Meet Virginia

NASHVILLE, Nov. 12.—(Special)—Vanderbilt's entire varsity eleven, many of whom have been suffering from injuries, will be able to take the field tomorrow against Virginia, according to Coach Dan McGugin. While no definite line-up has been given out, the coaches will use the best of the entire squad in trying to repeat last year's victory over the Old Dominion. Virginia comes with a great defensive team and a fast backfield. Vanderbilt will hatch her with another fast backfield, a great pair of kickers and some well-groomed forward passing. Unless Virginia uncovers an unexpected attack on Vanderbilt's freshman line, the Commodores expect to give her a hard run for the decision.

Coach McGugin has held night practice on Dudley Field nearly every day this week in order to bring the Commodores to top form for this game, after which a well-earned lay-off will be given the men before the final game of the season Thanksgiving Day with Sewanee.

FRANCE MAY QUIT WORLD LEAGUE IF HUN IS PERMITTED TO BE A MEMBER

French Representatives Will Withdraw From Geneva Session, it is Said.

POLITICAL EDITOR SAYS ORDER ALREADY GIVEN

Sensational Revelation is Made by the Echo De Paris Today.

(International News Service)
PARIS, Nov. 12.—The French foreign office has instructed the French delegates to withdraw from the League of Nations meeting at Geneva immediately if steps are taken for the admission of Germany into the League, it was revealed today by the political editor of Echo de Paris.

STANDARD OIL CO. GETS INJUNCTION

SERVICE RESUMED IN STATES OF PENNSYLVANIA, OHIO, INDIANA AND ILLINOIS

(International News Service)
HAMESVILLE, Pa., Nov. 12.—The Standard Oil Company today resumed oil service in Pennsylvania, Ohio, Indiana and Illinois after obtaining a temporary injunction in court here ordering the restoration of service.

James Bell, owner of a tract of land, who disputes the right of way of the great pipe line between Chicago and Bradford, Pa., is restrained by the court from interfering with the pipe line in any way.

Hearing to make the injunction permanent will be held next Monday.

HARTSELLE MAY SET A RECORD

ONLY TROOP OF CAVALRY IN ALABAMA IS BEING ORGANIZED

Hartselle soon may have the record of being the home of the only troop of cavalry in Alabama. Sergeant Lee, state instructor, has been in Hartselle aiding in the organization of the troop which is almost completed.

Only one troop is authorized for the entire state. Capt. R. A. Burleson has been active in aiding the organization.

REPORT SUBMITTED

(International News Service)
WASHINGTON, Nov. 12.—The Interstate Commerce Commission today submitted a report on the export of coal from the United States showing that for the first nine months of 1920, 30,273,379 tons were exported and in foreign bunkers. Of this amount, 23,560,013 was for export. The report was called for by a resolution of the United States senate.

BOYS HELD

(International News Service)
BIRMINGHAM, Nov. 12.—Two white boys, arrested here Thursday, are held in the city jail today for the Atlanta police department. It is alleged they rented a "drive it yourself" Ford taxi in Atlanta and drove it to Gadsden, where they sold it for \$200 on the installment plan.

COTTON REPORT

(International News Service)
FLORENCE, Ala., Nov. 12.—Up to November 1, 10,727 bales of cotton were ginned in Lauderdale county, according to the Federal cotton statistician. Eight thousand bales were ginned for the same period last year.

FATALLY INJURED

(International News Service)
ATLANTA, Nov. 12.—Paul Baullinos was fatally injured this morning when the automobile in which he was riding skidded into a telephone pole, near Highland avenue bridge. His negro driver fled.

D. S. MEDAL GIVEN ON ARMISTICE DAY TO THE WIDOW OF GALLANT OFFICER

Secretary Daniels Sends Greeting to Mrs. Frank R. King of Albany.

CITATION PRAISES THE BULKELEY COMMANDER

Gave His Life That Members of the Crew Might Live.

Included in the personal presentation of Distinguished Service Medals by Secretary of the Navy Daniels on Armistice Day was the presentation of the medal awarded posthumously to the late Commander Frank R. King. The medal, together with a copy of the citation for the gallant Commander, was mailed in Washington November 11 and was received here today by Mrs. Frank Ragan King, widow of the heroic officer who gave his life that members of his ship, the U. S. S. Bukley might live.

The following letter from Secretary Daniels accompanied the medal: The Secretary of the Navy
Washington
11 November, 1920
Madam:—

The President of the United States takes pleasure in presenting to you the Distinguished Service Medal awarded posthumously to your husband, the late Commander Frank R. King, U. S. N. for services during the World War as set forth in the following:—

Citation
"For exceptionally meritorious service in a duty of great responsibility as commander of a division of trawlers, engaged in the difficult and hazardous operation of sweeping for and removing mines in the North Sea Barrage; and especially for his heroic conduct on the occasion of the destruction by a mine explosion of his flagship, the Richard Bulkeley, of which he was also the commanding officer. Although stunned by the explosion, he made every effort to save the lives and to rescue men entrapped by steam in the fire-room. The rapid sinking of the vessel prevented his success in the undertaking. Finding the ship about to sink he proceeded to bridge, where he took his station, and went down with the ship."

For the President,
JOSEPHUS DANIELS,
Secretary of the Navy.

Three Children Burned to Death

(International News Service)
LOWELL, Mass., Nov. 12.—The three children of Mr. and Mrs. George Doermis were burned to death in their beds early today. While the little ones were trapped in the burning house alone, the mother was returning from a dance and the father had left the house to escort her home. The cause of the fire is unknown.

Steinburg Opens Business on 2nd Ave.

Joe Steinberg is opening a general dry goods store on Second avenue in the old Buttrey stand. W. B. Cole will have the management. He has a wide acquaintance and will no doubt enjoy a satisfactory trade. Mr. Steinburg is merchandising at Athens, where he is well known.

James M. Means, Slayer Is Freed

ATLANTA, Ga., Nov. 12.—A verdict of "not guilty" freed J. C. Knight charged yesterday. He had been on trial charged with the murder of James M. Means, transportation superintendent of the Georgia Railway and Power Company, on October 13. Knight was a street car conductor and was charged with being short in his account. When Means sought to place him under arrest, he attempted to commit suicide, according to the defense at the trial, when Means was accidentally killed.

THERMOMETER DROPS BELOW FREEZE MARK

The Weather Man served Albany-Decatur the coldest weather of the year last night, when the thermometer dropped below the freezing mark.

Mrs. A. H. Irons, government observer, announced today that a mark of 28 was recorded during the night, 4 degrees below the freezing mark. The thermometer had climbed to 54 this morning, she said.

OVERHAULING OF SHIPPING BOARD IS BELIEVED DUE

(International News Service)
NEW YORK, Nov. 12.—Sufficient testimony of lax business methods, leaving loopholes for graft and inefficiency in the conduct of the American government-built merchant marine, has been adduced to show the need of overhauling the shipping board, it was declared by the congressional probes before resuming their session today.

First revelation of an attempt to cheat the shipping board out of huge sums by padded contracts were made at today's hearing.

John Meehan, chief deputy investigator for the board, told on the witness stand how a contract involving millions of dollars for surplus lumber, with heavy loss to the government was "almost put over."

MISSING AVIATORS ARE BELIEVED DEAD

STORM ON LAKE FEARED TO HAVE TRAPPED PASSENGERS OF SEAPLANE

(International News Service)
CHICAGO, Nov. 12.—Belief that three naval aviators in a seaplane, which has been missing since Wednesday from the Great Lakes naval training station, have perished, was growing today as searchers failed to obtain any definite trace of the aviators. Storms that have repeatedly driven back rescue ships are declared by experienced Lake Michigan seamen to be more violent than any seaplane could ride through with safety. The missing aviators are: Ensign Clarke, of Peoria, Ill.; Machinist Barr, of Lake Forest, Ill., and Chief Printer Cesar of Hollywood, Ill.

A revenue cutter and a submarine chaser are continuing the search today.

Coburn's Minstrels Pleases Big Crowd

Coburn's minstrels pleased a big crowd at the Princess last night. Charles Gano, Turner Brothers and Edward C. Clifford carried the principal burden of putting the show over and their shoulders were capable ones. Coburn this year has gathered together a very creditable organization and, at last, has come to be a rival of the older minstrelsy kings.

Turner Brothers were responsible for a bit of acrobatic dancing that was very clever. Gano was well, just the same old Gano and, as usual, the audience liked him. He has lost none of his popularity. Edward C. Clifford, a brother of the ever-popular Billie Single Clifford, as interlocutor and soloist, added much to the success of the program. Coburn's show is worthy of a place beside Neil O'Brien's and Al Fields'.

Sugar Growers Warned of Freeze

(International News Service)
NEW ORLEANS, Nov. 12.—The weather bureau issued a warning this morning that the first freezing weather of the year is predicted for Saturday in the sugar regions of Louisiana and planters are warned to save their crop.

OYSTER SUPPER

The ladies of the Third School Improvement League are giving an Oyster Supper this afternoon and evening, beginning at 5:30 o'clock, for the benefit of the school. This good cause is worthy of your patronage.

INVESTIGATION OF EXPLOSION IN FULL 'SWING' AS POLICE CONTINUE ACTIVITY

Some Progress Made, New York Officers Announce Following Story.

DRIVER OF WAGON HAS BEEN FOUND, COPS SAY

Name of Blacksmith Who Shod "Mystery Horse" Also is Known.

(International News Service)
NEW YORK, Nov. 12.—Investigation into the shocking Wall Street explosion, which cost more than 30 lives and a property damage of millions, was again in full swing today as a result of disclosures and allegations by newspapers and other sources.

Following the sensational story, advanced by The Evening World, that the explosion was a direct result of a war between rival labor unions, the police reported that some progress had been made in their investigation of weeks. The driver of the wagon, which contained the huge dynamite bomb, has been found, the police said, although they declined to make known his identity or any other details.

The blacksmith who shod the "mystery horse" also is known to them, the police said. According to The Evening World, the explosion was caused by a war between the House Wreckers Union No. 95 and other building trades organizations.

PEACE SEEMS NEAR IN BASEBALL WAR

HIGH MOGULS GATHER ABOUT TABLE TO DISCUSS ARMISTICE TERMS

(International News Service)
CHICAGO, Nov. 12.—The high moguls of baseball will park their hoofs under the peace table here today and before night a protocol that will make permanent the present armistice will, it is expected, have officially ended the brief but tempestuous baseball war.

After the majors have settled their squabbles, the minor league club owners will be called in and a new plan to govern the entire fabric of the national pastime will be evolved.

Probability of Strike Remote

(International News Service)
WASHINGTON, Nov. 12.—The probability of another steel strike is remote, representatives of the steel union, affiliated with the American Federation of Labor, declared here today.

At a conference called by President Samuel Gompers, plans for a new campaign to organize the steel industry are being discussed.

Harding's Thoughts Turning to Golf

(International News Service)
POINT ISABEL, Texas, Nov. 12.—A Texas norther blew the vacation plans of President-elect Harding ashore today. The thirty five mile gale, which blew in from Laguna Madre, ruined tarpon fishing for the President-elect and made his thoughts turn to his old sport—golf.

Hunger Strikers Call Off Strike

(International News Service)
CORK, Nov. 12.—The nine Sinn Fein hunger strikers in Cork jail today voluntarily ended their fast after 93 days without food.

REPORT FILED

(International News Service)
WASHINGTON, Nov. 12.—The American Federation of Labor today filed with the clerk of the house of representatives its report from February 24 to November 2 of \$53,174.10 and expenditures of \$51,988.25 and remaining in the treasury \$1,185.85. The report shows that about two-thirds of this amount was expended for printing and the remainder largely for office expenses and salaries.

TUBERCULAR TREATMENT;
ALABAMA SHOWS PROGRESS

The Alabama Tuberculosis Association's announcement that plans are being made to have a nurse look after tubercular patients in every section of the state will come as cheering news to Alabamians. It furnishes another indication that Alabama is making progress. The entire health system of the state is being improved, strengthened here and there, expanded in this county and that and generally reaching out into even the most remote sections of our commonwealth.

Aided by progressive legislation, the state health department has built up a wonderful health machine in Alabama and the majority of the counties now have or contemplate having all-time health officers.

The work of the Alabama Tuberculosis Association, however, is confined principally to warfare against The Great White Plague. It is a co-operative agency, working with the health authorities, but specializing, whereas the health departments fight all disease.

The Association, a civilian organization, cannot exist without funds. To the end that the retention of tubercular patients may have the care of nurses in every county, the sale of Christmas Seals will be begun in this state soon. Every penny of the proceeds will be used in the tuberculosis fight.

It is a great campaign this Association is conducting, a worthy campaign in which every Alabamian should feel it is his duty to aid.

A bulletin issued by the Association says: For some time past the Association has realized the crying need of nurses for every county in Alabama and in fact, a great deal has already been accomplished a long this line. One of the greatest obstacles has been the scarcity of nurses, and this obstacle still exists, but just at the present time it is reported that relief is in sight, to some extent at least, as more nurses every day are realizing the great opportunity offered them in this work of fighting the great white plague.

The need of nurses in counties where there are a number of patients who have not been able to secure proper treatment for one reason or another—often the lack of money or ignorance of the fact that the disease has fastened its hold upon them—is evident to everyone at all familiar with the disease.

The Alabama Tuberculosis Association has already accomplished a great deal in fighting the great white plague in this state, and the leaders of the organization assert that the fight has only commenced. There is to be no letup—no quarter asked or given—until the battle has been won—and the disease, so often termed the greatest curse of civilization, banished.

HARDING WILL HAVE HARD TIME
"SCRAPPING" THE LEAGUE COVENANT

In view of the big Republican victories in both Houses of Congress, the impression generally prevails, that the winning party can do about as it pleases in the new Congress. This is true as regards all measures that require only a majority vote, but where a two thirds majority is required, a few Democrats will have to vote with the Republicans to prevent a deadlock. Also as the President's veto on a bill, would require that a two thirds majority be obtained in both the Senate and the House in order to make it a law, it will be possible for Mr. Wilson to defeat much legislation proposed by the Republican majority.

It is almost sure that there will be a battle royal or several of them over the disposition of the Versailles treaty.

As the Senate, which has the sole authority to ratify treaties is sufficiently strong as to Democratic members to prevent the ratification of any international agreement, it may be expected that the Versailles treaty will again meet rough sailing, both by those who favor it and those who wish to reject it. In a word, after March 4th the country will be in exactly the same position as to foreign affairs that it has been for the last four years.

It has been reliably reported that Elihu Root cabled Senator Harding from Europe "that the structure of the Versailles treaty and the League covenant were worth preserving"; if this be true and Mr. Root exerts his influence to save the treaty, it is quite possible that Mr. Harding's word "the league is deceased" were spoken rather prematurely.

Especially would it seem that Harding will have trouble, if he tries to kill the League, in view of the statement that Root is known positively to have sent from Europe—"it was very unwise to declare the League dead."

A considerable part of Mr. Root's now famous cablegram, very recently made public, is as follows and would seem to indicate that Harding will encounter rough sailing if he undertakes to "scrap the league":

Hays in March, 1919. It is very unwise to declare the league dead. It would not be true. The league has hardly begun to function because the terms of peace have not yet been enforced by the victorious nations. Polish questions for example are properly being handled by the foreign offices without any reference to the league. They are not the league's business.

"In my opinion a new deal here from the beginning by abandoning Versailles treaty is impossible. To attempt it would bring chaos and an entire loss of results of the war and general disaster involving the United States. The only possible course is to keep the treaty modifying it to meet the requirements of the senate reservations and the Chicago platform and probably in some other respects.

COTTON MARKET

The cotton market is the most unstable, sapacious, sensitive, deceptive and altogether unreasonable institution, if such it may be properly called, in the world, says The Albany (Ga.) Herald. Physical conditions seem to have nothing whatever to do with its changes and upward and downward fluctuations; or, if they do, they operate contrarily, for the very conditions which cause the market to fall this week may, if we heed the market reports, cause it to rise next week—and vice versa.

Here's an instance in illustration: About ten days ago cotton took a tumble of about ten dollars a bale, and the explanation sent out by the market experts was that the coal strike in England was the cause. During the past week the market rallied somewhat and the staple had advanced to nearly where it was when the British coal strike scare hit it, but yesterday the news came that the coal strike had been settled, whereupon the price of cotton dropped nearly five dollars a bale.

And so we see the British coal strike affecting the cotton market in directly opposite or contradictory ways—first the strike causing a decline and then the settlement of the strike causing another decline.

There appears to be no physical condition or fixed rule by which the course of the cotton market can be reasonably calculated.—Montgomery Times.

IS YOUR JOB INTERESTING?

"A man who knows nothing of baseball or golf looks upon them as a bore until he understands them and then he becomes enthusiastic.

The same holds true with work. No man can be enthusiastic about his job until he understands it, and he cannot understand it unless he studies it—analyzes it—makes it a part of his life.

Many a man is unhappy in his job because he does not understand it and therefore cannot enjoy it.

There are others who find work to be irksome because they do not know how to work.

And there are others who are truly in the wrong job.

Work is a means to an end. We must keep our mind on the object—the goal. That is what makes work interesting.

All achievement is the fruit of hard work.

Some jobs may look easy—from a distance. Try out the job yourself and you will find it requires hard work or offers no reward.

Water has to keep running to keep itself fresh—plants that lie idle soon fall into decay—machinery not working becomes rusty—minds that do not exercise become laggards. Work is the one answer.

Study the possibilities of your work—learn to utilize the unseen forces that are hidden in every job. Be a constructive worker.

These sensible observations are taken from an advertisement of the Robnett Organization, an institution that furnishes business training.

Nothing is truer than the statement above quoted that it is the object to be achieved, the goal to be reached, that makes work interesting. And more than this, it is not merely what is accomplished in one's own job, but how that result is going to dovetail in the workings of the whole business. To understand your job, therefore, in its relation to others; it is necessary to have imagination. When anyone once gets this viewpoint, he must feel more interest and pride in what he is trying to do.—Southern Telephone News.

It remains for Mr. Bryan to fill the full measure of iniquity by calling on Gov. Cox to resign his good job as Governor, on the ground that he is a defeated candidate.

The apple Adam and Eve ate must have been a "red" one.

Alabama Democrats should congratulate themselves because they do not live in the Volunteer state.

From the size of the crops a few of those who talked about it must have actually gone back to the farm.

The Russians are reported to have little to eat except raw fruit. It is to be hoped they do not have to pay as much for it as we do.

A miss is as good as a mile, on election day.

The recent election gives mankind still another reason the blame it on the women.

Kansas boasts of a lawyer, a preacher and an editor all in one. What is the matter with Kansas?

Since Mr. Harding was brought up in a newspaper office, he certainly knows something about poverty, first hand.

The feathers in the caps of men do not always prove that they are fine birds.

The supreme court said you could keep your liquor outside your home. It would have suited some people better if the court had ruled that you could keep it in your stomach.

Just In Passing

MORE WORKERS

"I notice an encouraging sign," said H. C. Hutchison, business secretary of the local Carmen's union. "I recently received an official communication through our grand lodge officers, stating that 317 carbuilders are badly needed on the Atchison, Chicago and Santa Fe railroad. I also hear that the big continental railroads are asking for hundreds of machinists. This looks to me like the country expected to get busy and do the large amount of work due to be done because of the loss of time because of the war and the general devastation caused by the war."

DAILY PRAISED

"I'll tell you about this Albany-Decatur Daily," said H. K. Laatsch. "It just gives it to the people like it gets it. I might not know much, but I have been to most of the places in this country, and I never saw a paper stick more to the idea of giving what happened and what was said out to the public just as it was than has the Daily. I noticed all along during the war that there was so far as I could see no fear or favor shown as the news. As I live in Albany and work almost across the line in Decatur, I have noticed carefully to see whether the Daily people seemed to know where the different people lived who read the paper, and I could never see any distinction shown for either city, for or against. I have often thought that we came as near having a free and impartial press here as has any community," concluded Mr. Laatsch.

Voice of People

Editor Daily:

The American Cotton Association is a co-operative business organization. The officers of the Alabama Division are successful business men, bankers, merchants and farmers.

The object of this association are by co-operation to encourage and continue the diversification of crops; the cultivation and production in a business-like way, at the least possible cost; the warehousing and marketing in an orderly manner that will insure a profit to the grower.

To be successful in this, the most laudible and necessary movement ever undertaken in Alabama, we must have fifty thousand members and I hereby call upon every man and woman, who believes in the future prosperity of Alabama, to join this association and work together for its objects and purposes.

Better farming, marketing, houses, churches, schools and roads, which means prosperity to all.

W. C. COKER,
Chairman State Executive Committee,
Ala. Division, American Cotton Assn.

Silence That Terrifies

Some years ago Mr. Galton, the famous anthropologist, inventor and constructed a whistle which, by means of an adjustable plug, could be rendered so shrill that presently it ceased to be heard by human ears. But here is the curious part of it—after the sound of the whistle had ceased to be audible to any human ear, a dog was still able to hear it, and came readily when it was blown.

Where Sound Travels Far

Across ice and particularly in hard frost, sound travels amazingly. Lieut. Foster, on an arctic expedition, found that he could converse with another man quite easily across the mouth of a bay which was a mile and a quarter wide.

Speed of a Waterspout

A waterspout is constantly spinning. The moment it ceases it collapses. At the distance of about a quarter of a mile above the sea level its spinning speed has been estimated at six miles a minute.

Catarrhal Deafness
and Head Noises

TELLS SAFE, SIMPLE WAY TO
TREAT AND RELIEVE AT
HOME

If you have catarrhal deafness or head noises caused by catarrh, or if phlegm drops in your throat, or has caused catarrh of the stomach or bowels you will be glad to know that these distressing symptoms may be entirely overcome in many instances by the following treatment which you can easily prepare in your drugist 1 ounce of Eucalypti (Double Strength). Take this home and add to it 1-4 pint of hot water and a little granulated sugar; stir until dissolved. Take tablespoon four times a day. An improvement is sometimes noted after the first day's treatment. Breathing should become easy, while the distressing head noises, headaches, dullness, cloudy thinking, etc. should gradually disappear under the tonic action of the treatment. Loss of smell taste, defective hearing and mucus dropping in the back of the throat are other symptoms which suggest the presence of catarrh and which may often be overcome by this efficacious treatment. It is said that nearly ninety per cent. of all ear troubles are caused by catarrh and there must, therefore, be many people whose hearing may be restored by this simple, harmless, home treatment.—Adv.

New Ocean Danger.
Little Harold, 5, was vacationing at the lake shore. He overheard his elders remark about the terrible undertow near the pier. The next day his mother went into the water and Harold screamed at her from the shore: "Oh, mother, don't go in there; there's a big undertow there and it might bite you."

Oldest Parliament.
Next to the British parliament which, in its present form, dates back to 1295, the oldest legislative assembly is the parliament of the Bermudas, West Indies. It is 300 years old.

Our Deficient Smeller.
Our sense of smell is far inferior to that of the savage; but even his scent faculty is a poor thing compared with that of lower animals. A cat can get drunk on a smell. Watch pussy with the catnip.

Breeding of cats for the sake of their fur is a thriving industry in Holland.

Ancient Egyptians and Greeks treated insane persons as suffering from a disease, but in medieval times they were regarded as possessed of devils.

Our Best Known

Man and Wife, All Run-Down from Farm Work,
Were Greatly Helped by Ziron.

"MY WIFE and I, after a hard spring on the farm, were tired and run-down," says Mr. E. B. Mulkey, of Route 1, Acworth, Ga. "We neither felt well. I knew my blood was bad, as I had little boils on the back of my neck.

"We felt we needed a builder. We had heard of Ziron and thought it must be what we needed. It certainly was. We took it faithfully, and after a week or such a matter we began to feel better. My wife felt like cooking, and I sure felt like eating.

"Ziron sure did us good. It made us both feel stronger and better for the fall work, which everyone knows is 'some work' on a farm. My boils began to dry up, though just at first they seemed worse.

"We are much better" and can highly recommend Ziron, and gladly do so for it sure did us good."

Ziron is a safe, reliable, tonic medicine, good for men, women and children, when an iron tonic is indicated. It is easy to take and contains no habit-forming drugs.

METHODIST MISSIONARY SOCIETY

The Mission Study Class of the Central Methodist Missionary Society met Monday afternoon with Mrs. Virginia Graham. Miss Ellen Groenendyke conducted the devotional and led in the study of the third chapter of the Bible and Missions. Subject of this chapter, "Every Man and His Own Tongue," was handled in Miss Groenendyke's usual forceful style. A short business session followed the study with the president, Mrs. Proctor, presiding. The meeting came to a close with the Lord's Prayer repeated in unison.

THE HALL OF FAME

—PROCESSIONAL

With kindling hearts again we tread
The pathway of the mighty dead,
Where meet and pass their spirits high
Who, tasting death, disdained to die.

We hail them, fathers of the free,
And prophets of our destiny,
Who from their starry height control
The tides that food a Nation's soul.

In high humility we claim
Our birthright in their hallowed fame;
With widening vision we would rise
To the horizon of their eyes.

God of our fathers, grant that we,
Who keep their sacred memory,
Fail not when prophecy again
Shall smite and rouse the souls of men.

—E. E. B.

Mr. and Mrs. W. F. Rose are the week-end guests of Mrs. J. J. Rose. Mr. and Mrs. Rose are on their bridal trip, having been married on the 10th of November in Alabama City.

Mr. and Mrs. W. A. Bibb leave tomorrow for a few weeks' visit to their daughter, Mrs. Law Lamar, of Selma, Alabama.

How Strange Things Sometimes Happen

"I want to write you to let you know that I have taken 2 more doses of Mayr's Wonderful Remedy, and have gained 10 lbs. in the last 2 weeks, although I am thinner around the waist than before, because the bloating in my stomach has all gone and I am feeling like a boy again. There never was anything in this world half as good as this medicine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—S. M. Thompson, Albany, Owl Drug Co., Decatur.—Adv.

Hagan, 931 Dauphin Way, Mobile; general federation director, Mrs. L. J. Hacy, 1014 S. 23rd street, Birmingham; president, Mrs. J. Edward Jones, Cloverdale Road, Montgomery; corresponding secretary, Mrs. Bibb Graves, 511 S. McDonough street, Montgomery; treasurer, Mrs. C. C. Adams, Richmond, 2020 Highland avenue, Birmingham; auditor, Mrs. C. E. Crowell, Sylacauga; parliamentary, Mrs. Erwin Craighead, Mobile; editor, Mrs. J. Walter Black, 1212 S. Hull street, Montgomery.

The Convention of 1920

There is no doubt about it, the convention of 1920 is to be an interesting one. The program committee met this week on Thursday to go over the final details that will make the week of November 16 both pleasant and profitable. Starting Tuesday evening, events of interest have been planned for each day while at the same time ample space will be given for the business of the federation. Delegates are asked to write to Mr. John Moffatt, Exchange Hotel, for reservations for that time, and to send their names and the subject in which they are especially interested to the corresponding secretary, Mrs. Bibb Graves. The purpose of this last request is to place those who are available on the program for the section meetings. Modest delegates may not care to offer themselves as program material and if so, perhaps some one of the club friends will give information about them in this regard.

Two social affairs complimentary to the federation have been arranged for the week. On Tuesday evening after the program, the Montgomery clubs will entertain at a beautiful reception at the Exchange complimentary to the past presidents of the federation and the present officers. On Wednesday afternoon Mrs. Thomas Kilby will be the gracious hostess at the Governor's Mansion. She will be assisted by the presidents of the Montgomery clubs.

The evening of Wednesday, the 17th, will be devoted to the music clubs and their work. A treat is in store for all, in the address of the chairman of music in the general federation, Mrs. Marx Oberdorfer, of Chicago, on "Americanization in Music." Mrs. Oberdorfer was one of the striking figures at the Biennial in Des Moines, and those who heard her there are most enthusiastic about her coming to Alabama. This address will precede the annual concert of the federation, all the music clubs of the Alabama Federation contributing to its success. Mrs. James R. Hagan, past president of the federation, has charge of the music department with Mrs. C. Guy Smith of Montgomery as an able lieutenant in charge of the concert.

Wednesday afternoon according to the custom of the federation has been assigned to department meetings and section conferences. The music department, the writers' department, the literature section, the divisions on public welfare, all under able chairmen and with a few suggestive speakers will meet in more informal session than can be allowed by the assembly of the whole convention.

One of the new and attractive features of the convention will be the exhibit of the paintings by Guy Benneker at the Exchange. Mr. Benneker is a citizen of Cleveland, O., and as a painter he has achieved an international reputation. His principal theme for his paintings is men at work, through which theme he has become illustrious as an interpreter of industrial conditions. A recent number of the Red Cross Magazine contains a good critical article on his work. This exhibit, which is brought into Alabama through the Alabama Federation of Arts, will be shown in Montgomery at the federation as its first appearance in Alabama. A local committee, headed by Mrs. Walter Fisk, will look after the hanging and care of the pictures while they are here.—Montgomery Advertiser.

Mr. and Mrs. Beverley Brown have returned from a visit to relatives in Douglass, Ariz.

Mrs. J. J. Rose has returned from a visit to her sister, Mrs. M. A. Hewlett, in Deposit, Ala.

Miss Helen Camody has returned from an extended visit to her sister, Mrs. Cleo Watson, at Gadsden.

"Extra Fine Dumplings"

Delicious apple dumplings, with a delicate, crisp covering of freshly baked pastry that is good to the very last crumb!

You know they were made with Dainty Flour just to look at them. Carefully selected soft wheat, milled by a special slow process, gives Dainty baking qualities which no ordinary flour possesses.

Naturally, Dainty costs more. Yet the difference will be repaid by what you save on shortening. And think of the better baking!

It is your blood. It needs red puscles. Instead of poking about sick why don't you take "Pepto-Mangan, the blood tonic"? It has the ingredients weak blood needs. With red blood your energy and enthusiasm return. You eat better, tackle work and achieve.

Pepto-Mangan is widely and highly endorsed by physicians. It is effective and easy to take. It is so both liquid and tablet form. The principal properties are identical.

Sold at any drug store. But be sure to get the genuine Pepto-Mangan "Guide's". Ask for it by the name and be sure the full name, "Pepto-Mangan," is on the package.

Writings Ascribed to Jews.
It is believed today by many savants that the Old Testament description of Solomon's temple was written by the Jews after their return from captivity, with the memory of the real splendors of Babylon fresh in their minds, says Anstruther Mackay, writing in the *Atlantic Monthly*.
It is possible that the actual temple was a simple place of worship. If it had been otherwise, it is hardly possible that no remains of it would be visible today, seeing that the temples of Egypt, which are so much older, remain, in some cases, almost in toto.

BETTER THAN WHISKEY FOR COLDS AND FLU

New Elixir, Called Aspironal, Medicated With Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter if Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the year in the drug trade is Aspironal, the two-minute cold and cough reliever, authoritatively guaranteed by the laboratories; tested, approved and most enthusiastically endorsed by the highest authorities, and proclaimed by the common people as ten times as quick and effective as whiskey, rock and rye, or any other cold and cough remedy they have ever tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspironal and tell him to serve you two teaspoonfuls with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be bashful, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspironal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children. (Adv.)

WAREHOUSE YOUR COTTON

(Prepared by American Cotton Assn.)

The violent fluctuations in the cotton market recently indicate that in some parts of the South too much cotton is being sold at this time. The best way to steady the market is to put all cotton in warehouses when ginned and sell sparingly until the price has reached a stable level. Gov. Harding of the Federal Reserve Board in a recent speech said:

"What is needed is an open market in which the law of supply and demand is given free play and in which buyer and seller may meet on equal terms. Theoretically at least it is possible, if adequate warehouse facilities are provided, for the farmer to obtain the benefit of the average price for the year without any increase in cost to the consumer, and with lessened strain upon transportation lines and banks by distributing the marketing process over a reasonable period."

The community warehouse can be built to care for 1000 bales at a cost of \$1500, or maybe less, if lumber can be had from neighboring mills. When stored in a community warehouse roundhotted in accordance with the federal warehouse law, cotton becomes an agricultural commodity, which is eligible for loans on cotton stored therein. When there is no warehouse one should be speedily built.

Every community in the South should bond any warehouses they may now have, so as to make it acceptable for loans on cotton stored therein. When there is no warehouse one should be speedily built.

The large carry-over from last crop and the congested condition of railroad traffic makes it important to any thinking man to provide adequate protection against damage for his cotton and to put the cotton where it will be available as security if needed.

"The Victrola Store"

AMERICANS GIVEN ORDERS IN ENGLAND

If Strike Does Not Lower Price of Coal British Steel Industry Will Suffer

By William L. Mallabar, International News Service Staff Correspondent

LONDON, Nov. 11. — "American companies are jubilant at the steel orders they have just taken in England."

This was the statement made by A. J. Hobson, president of the British Associated Chambers of Commerce at a meeting of the British Commercial Gas Association held recently in Sheffield.

Mr. Hobson has just returned from America and he took the opportunity of the association meeting to warn his fellow-countrymen of the menace of American competition.

"The American manufacturers are breaking into quite new trades in this country," added Hobson. "For the first time they have taken large orders for colliery winding ropes for English pits. This has been brought about by the action of the miners in demanding a price for coal which made it impossible to make these ropes in England."

"Not only was the gas industry being lifted to an abnormal level of price for the same reason, but so were other British industries and the result was going to be very detrimental to the commerce of the nation," continued the speaker.

"Up to now the price of coal has not much mattered to the steel industry because, owing to the famine of supplies throughout the world the price has been passed on as part of the price of steel," declared Hobson. "That has ceased to be the case and the great steel industry of England will have a desperately bad time before it if the result of the strike does not bring about some modification in the price of coal."

Disquieting news for British manufacturers is coming in from other centres of the steel industry. It is reported from Morison that a large number of steelworkers there have decided to sail for Canada, where the

Baldwins are erecting a large steel plant.

Many works have closed down in Swansea and at the same time 700 tons of Belgian pig iron arrived at Swansea Docks from Ghent consigned to local works at Morrison and Gorseinon. This is the first Belgian pig iron to arrive in this section and the consignment is said to be very significant.

Steel works at Weardale, which have large Government contracts, are continuing until half the present stock of coal is exhausted. They will then close down failing further supplies and the remainder of the coal will be distributed among the employees.

COUNCIL TO MEET

Council No. 1, Funeral Benefit Association, will meet at Odd Fellows' Hall on Saturday night, the 13th of November, at 7 o'clock. All members and their families are requested to be on hand. Good speaking and music.

Many a Pretty Face

Spoiled by Pimples

Not only are these pimples and blotches disfiguring, but they lead to serious skin diseases that spread and cause the most discomforting irritation and pain. Sometimes they foretell Eczema, boils, blisters, scaly eruptions and other annoyances that burn like flames of fire, and make you feel that your skin is ablaze. If you are afflicted with this form of skin disease do not expect

to be cured by lotions, ointments, salves and other local remedies, as they can not possibly reach the source of the trouble, which is in the blood. Begin taking S.S.S. today, and write a complete history of your case to our chief medical adviser who will give you special instructions, without charge. Write at once to Medical Director, 152 Swift Laboratory, Atlanta, Ga.

"The Girl in the Limousine"—Princess s Theater Monday Night, November 15

Amusements

"THE GIRL IN THE LIMOUSINE"

There are no rules prohibiting hilarious laughter and so "The Girl in the Limousine" in which Emma Bunting is cast for the leading part, is allowed to be presented at the Princess Theater on Monday night, November 15, for an engagement of one night and evoke gusts of laughter. This piece is written by Wilson Collison, author of "Up in Mabel's Room," and Avery Hopwood, author of "The Gold Diggers." The story is laughable in the extreme. A young society man is knocked senseless by a pair of foot-pads, robbed of all his possessions, including most of his clothing, and left in a lady's boudoir while the lady is fast asleep. Of course the situations which ensue are embarrassing and ludicrous.

HASTE IN SHOOTING

RESULTS IN DEATH

(International News Service)
LYONS, Colo., Nov. 12.—A race between two youths for the honor of being the first to shoot a bluejay resulted in the death here of Roy Greene, 11, when he was shot and almost instantly killed by Russell McMillan, 9. The two lads were rabbit hunting when they spied the bluejay.

"Let's see who can get him first," McMillan shouted.

As he raised his rifle it was discharged accidentally, a bullet entering Greene's breast.

Greene died before medical aid could be brought to him.

Can Elephant Jump?

Although they are generally believed to be able to do so, it is impossible, owing to weight and structure, for an elephant to leap either up or forward. A big elephant takes 6 feet 9 inches at a stride, but a 7-foot trench would be as hopeless a barrier to it as one of 70 feet.

SHERIFF'S SALE

BY VIRTUE of an execution issued out of the Clerk's office of the Circuit Court of Morgan County, and State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain Judgment recently obtained against J. T. Wiggins and M. D. Wiggins, out of the goods, chattels, lands and tenements of the said J. T. Wiggins and M. D. Wiggins, I have levied on the following property, to-wit: The E 1/4 of S. W. 1/4 and the W. 1/2 of the S. E. 1/4, Section 22, Township 7, Range 5 West, Morgan County, Alabama.

Therefore, according to said command, I shall expose for sale, at Public Auction, all the right, title, and interest of the above-named J. T. Wiggins and M. D. Wiggins, in and to the above-described property, on the 29th day of November, 1920, during the legal hours of sale, at the Court house in Morgan County, Alabama.

Dated at Decatur, Ala., this 28th day of October, 1920.

INDIANS NOW WORKING

IN COLORADO MINES

(International News Service)

TELLURIDE, Colo., Nov. 12.—Lo, the Redman has joined the group of foreign miners here that includes representatives from practically every nation on earth.

Forty full-blood Navajo Indians from New Mexico are now employed in a tunnel working here. It is believed to be the first experiment in the use of American Indians as underground workers.

VITAL ORGANS SEEN AT WORK BY X-RAY

New Discovery Permits of Watching
the Action of Human Organs—
Heart Action Studied Easily

(International News Service)
BERKELEY, Cal., Nov. 12.—The inner workings of the human body are revealed by a new instrument, termed the "fluoroscopic unit," the invention of Frank Rieber, electrical engineer and son of Professor C. H. Rieber, of the University of California. The instrument, a development of the Roentgen-ray principle, is declared to be an important scientific invention and trials here have proven it successful. Rieber leaves this month for New York to explain his findings and give a demonstration of the instrument before an Eastern scientific society.

"Homo-vision" is the accomplishment of the instrument. The patient is strapped to a table with an observation screen at the back. When the instrument is operated it gives out a pale light which throws an image of the human frame on the screen. Variations of the power enable the observer to watch the actions of the various organs. The heart actions can be studied easily; the inner workings of everything but the human soul are laid bare.

At his demonstration in the East Rieber will explain his system for them, by means of organ and skeleton photography, which investigation has shown to be equally accurate with finger print photography.

Rieber's instrument is so small that

Before you buy a can of Calumet you are certain of the greatest baking powder value—of the best baking results.

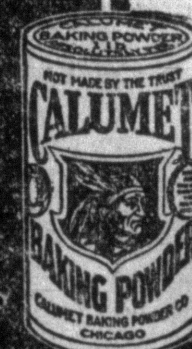

Because there are so many definite proofs of its superiority—of its purity and reliability.

It received highest awards at World's Pure Food Exposition, Chicago; Paris Exposition, Paris, France. PROOF that it is the best baking powder in the estimation of expert judges of baking powder quality.

For thirty years it has been the favorite of millions of housewives. PROOF that it gives those millions the best of satisfaction.

CALUMET BAKING POWDER

RECEIVED
HIGHEST AWARD

"BEST BY TEST"

It contains only such ingredients as have been officially approved by U. S. Food Authorities. PROOF of its strict purity and excellence of materials.

It is made in the largest and most modern and sanitary baking powder factories in the world. PROOF that it must be better baking powder than one made under less favorable conditions.

You save when you buy it—moderate price. You save when you use it—possesses more than ordinary leavening strength—therefore you use less.

Gluten is the muscle building part of flour which is of great importance. To be sure you get it in your bakings use plain flour and good baking powder, (not self-rising flour).

Calumet Chocolate Cake

Recipe

1/2 cup butter, 1/2 cup sugar, 3 teaspoons Calumet Baking Powder, 1/2 teaspoon salt, 2 cups sifted flour, 1 cup milk, 2 eggs. Then mix in the regular way.

Safety Deposit Boxes

For Rent

We have recently doubled our capacity in this department and now have Safety Deposit Boxes for Rent. Would also request all present box holders to come in with their keys as we wish to transfer them to the new boxes.
